WASHABLE

STAR TEMPERA

POSTER PAINT

BRIGHT IDEAS...

An ideal beginners paint for the younger child.

Five Star Poster Paint is water soluble and easy to clean up, yet still gives vibrant colours. Use for interior displays, posters and simple model decoration. Non toxic.

TO CREATE YOUR OWN MASTERPIECE

You will need:

- Paper
- Five Star Washable paint
- Brushes, palette, pencil

Hint: Protect clothing and workspace.

Young children can paint freely with Five Star Washable Paint. Older children may prefer to have a pencil outline to guide them. Wash brushes in water, but do not add water to the paint. Add details and outlines with felt tips or marker pens for a neat finish.

Using GLITTER colours

Five Star Glitter Paint is a ready to use, translucent paint containing brightly coloured glitter. Water based and non toxic. Ideal for special effects on art and craft projects.

GLITTER FISH

You will need:

- Paper
- Five Star Glitter paint
- Brush
- Scissors
- Five Star PVA
- Black card/paper

Hint: For this design we paint an area with glitter, then cut out the fish designs.

Instructions:

- 1 Paint an area (big enough for 4 fish) with your first glitter colour and wait for it to dry.
- 2 Add-on additional glitter colours in a wavy pattern. Using a thicker layer of glitter will give a better effect (experiment).
- 3 When the Glitter Paint is dry, cut out your fish and add an eye to each one.
- 4 Glue the fish to black card.

Using METALLIC colours

Five Star Tempera Metallic is a premium washable poster paint with a metallic brilliance. Water based and non toxic. Makes art projects extra special.

CROWN

You will need:

- Light cardboard or strong paper
- Five Star Tempera metallics
- Paint Brush
- Jewels and glitter

Instructions:

- 1 Cut out the design
- 2 Paint the card with Tempera Metallic
- 3 Allow to dry, then decorate with more colours
- 4 Decorate with jewels (or sequins, buttons) and glitter
- 5 Form into a crown, overlap ends and staple together

Hint: For best results undercoat with Five Star Tempera white, then 2 coats of Five Star Tempera Metallic.
