Create great spaces for your students to flourish...

# Create your own, customised, modern learning environment

**Creating a modern learning environment requires you to understand the different learning styles of students – so no more rows of desks, no more uncomfortable chairs.**

**What's required is different learning spaces for students who learn in different ways, like:**

**CREATIVE** – ideally there's low spaces, seat for individuals, but close to others – these students like to operate where they can see others and what they are doing.

**LOGICAL** – these students look for a space that suits the activity – group work means a big table to congregate around or a conference style space, whereas for project or study, they want to be alone, so maybe a booth.

**INTERPERSONAL** – for this learning style – as much interaction is as possible, so sitting facing each other in groups is the requirement for best results.

**CONTROLLED** – these are the organised, structured learning students – space of their own is important, they're in control and it keeps them from being distracted.

***So it's not one size fits all any more***, and that's where CES can help you create the environment so all your students can flourish and achieve their full potential.

CES has an exciting range of furniture and equipment that reflects a new way of learning and is Ministry of Education compliant and what's more; it's attractive, flexible and your students and teachers will love working with it.

We can also create made to measure furniture to suit your individual school and learning space.

## The PantoFlex Ergonomic Chair

- Unique ergo-dynamic flexing frame
- designed to provide the correct support for sitting in a variety of positions
- 2.5mm high tensile steel one-piece frame with cross-brace gives tremendous strength
- The shell features a double walled design with air-cushion air-flow – great for hot days
- Fully recyclable poly propylene shell
- Stackable to six high
- Colours: Midnight, Blue & Mist Grey
- Seat height: 340, 380, 420 or 460mm

## Intellect Wave® Cantilever Chair

- Exceeds industry standards for durability
- 15-gauge elliptical steel tubing provides superior frame strength
- Lightweight, textured antistatic poly shell resists scratching, fading and denting
- Waterfall seat front minimises leg pressure
- Easily stacks on desk
- Passive flexing back offers ergonomic comfort
- Wide moulded handle for ease of mobility
- 15 year warranty
- Colours: Flannel Black, Splash Blue, Poppy Red, Grass Green & Sunburst Orange
- Seat height: 460mm

## Postura Chairs

- Ergonomically designed
- Moulded from one piece polypropylene
- Strong durable and light – virtually indestructible
- No rocking or tipping
- Passive flexing back adds to lumbar comfort
- Anti-static – stays cleaner
- Waterfall seat edge minimise leg pressure
- Stacks 12 high
- Sebel colour range (page 29)
- Sizes: 295mm, 335mm, 350mm, 370mm, 395mm, 405mm, 445mm

Suggested configurations

## Trapezoid Student Tables – Modular Seminar Table

These versatile tables are large enough to accommodate two students, and when you group them together there is the real ability to bring large groups together. You can even organise a conference setting.

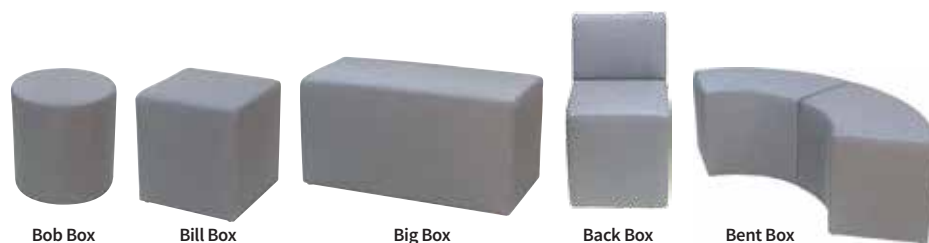

- Configurations to suit
- Flexible and adaptable
- Round or square legs
- Five heights available
- 600mm space per person
- Long side: 1200mm
- Short side: 720mm
- Table depth: 600mm

*“It’s easier to use because you can collaborate with people. You can switch the desks around and work with the people you want to work with.”*
