Best Practise

Check the Ministry of Health website to see the most up-to-date advice to follow. The Ministry of Health suggests people:

Stay at home if you are unwell and call Healthline (for free) on 0800 358 5453 or your health care provider if you think you have symptoms of COVID-19.

Follow these basic hygiene measures while attending the event:

- **Hand hygiene** - frequently wash your hands for a minimum of 20 seconds, then dry them thoroughly. If you are unable to access soap and water, use an alcohol-based hand sanitiser containing at least 60% alcohol. If using sanitiser, ensure that you use enough to cover your hands and rub together until dry.
- **Coughing and sneezing etiquette** - sneeze or cough into the crook of your elbow or cover coughs and sneezes with a tissue, then put the tissue in a bin and clean your hands (as above).
- **Avoiding touching your face** - hard surfaces can be contaminated with infectious droplets. Hands can be contaminated after contact with these surfaces. If you need to touch your face, clean your hands first.
- **Cleaning surfaces and frequently touched items** - clean high-touch surfaces and items (for example door handles and phones) frequently with an appropriate cleaning solution to reduce transmission of germs in general.
- **Physical distancing**: when physical distancing isn't a requirement, you can still play it safe by continuing to keep a distance from people you do not know. Use your judgement. This will help to minimise the spread of COVID-19 if community transmission returns.
