

TRAINING

### Metrotest Course Outline

Don't miss out on this limited opportunity to earn a Competency Certificate and save money for your school. With Metrotest training, you'll get hands-on experience using a Portable Appliance Tester (PAT) to inspect and test electrical equipment in accordance with AS/NZS3760 standards. You'll also learn about appliance safety requirements, features and hazards. If you pass the course, you'll receive a photo ID, Competency Certificate, and a training manual.

### What to Bring

- Bring a piece of electrical equipment relevant to your field for training during the course.
- Portable Appliance Testers will be available, but if you already own one, bring it with you!
- **DON'T** buy a tester before the course as you'll learn what to look for and how to make a good choice.
